- Proficiently manage all aspects of the Software Development Life Cycle (SDLC), encompassing Analysis, Design, Development, Implementation, Issue Fixing, Unit Testing, Integration Testing, and Defect Prevention.
- Skillfully design and execute test cases, collaborate closely with the development team during bug fixes, ensuring robust and high-quality software delivery.
- Manage, develop, and enhance SQL scripts, including DDL and DML queries, along with creating comparison scripts for comprehensive data analysis and client requirements.

EDUCATION

BACHELOR OF SCIENCE

Punyashlok Ahilyadevi Holkar Solapur University Solapur.

06/2016 - 03/2019

CGPA : 8.20

- Physics 

MASTER OF SCIENCE

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad.

06/2019 - 05/2021

CGPA : 8.87

- Physics 

CERTIFICATES

- SQL Developer Certified
- Software Testing Certified 
- TCS iON Email Etiquette Certified 
- TCS iON Interview Skills Certified 
- TCS iON Presentation Skills Certified 
- TCS iON Communication Skills Certified 
- TCS iON Introduction to Soft Skills Certified 

INTERESTS

- Reading
- Programming
- Online Learning

- Demonstrate expertise in query optimization and performance tuning, contributing to enhanced database efficiency and responsiveness.
- Demonstrate commitment to continuous skill development through self-learning, staying updated with the latest technologies and following industry trends.

RELEVANT PROJECTS

DevelopTrees: "MY MART" E-commerce website

04/2024 - 12/2024

Tasks:

- Developed and maintained the MyMart e-commerce website's database system using MS SQL Server, managing tables for customer details, product information, shopping carts, and order tracking.
- Designed and optimized database workflows to streamline the ordering process from product selection to delivery, ensuring efficient data flow and accuracy.
- Implemented advanced relationships and triggers to enhance real-time order tracking and inventory management, improving platform functionality.
- Collaborated with a team of five members to optimize database performance by creating indexes, fine-tuning queries, and addressing performance bottlenecks.
- Enhanced the MyMart platform's performance, resulting in faster order processing, real-time updates, and improved customer satisfaction.

LIGMS INDIA PVT LTD, Pune:

"Life Insurance Domain Management System"

03/2022 - 01/2024

Tasks:

- Designed and maintained the Life Insurance Domain Management System's database structure using MS SQL Server, including tables and complex joins for seamless data integration.
- Developed modules such as Admin, Agent/IBO, and Customer/Policy Holder to efficiently manage policy data, agent activities, and customer records.
- Created and optimized advanced functions, dynamic views, and indexes to enhance database performance and query execution.
- Automated workflows by developing stored procedures and triggers, ensuring smooth operations and enforcement of business rules.
- Streamlined insurance operations and improved data accessibility with robust data validation, security measures, and compliance-focused database development.

My Personal Project: "Portfolio Website"

07/2024 - 08/2024

Tasks:

- Developed a responsive website showcasing software testing, automation, and MS SQL Server skills.
- Integrated GitHub and LinkedIn profiles, and added a contact form with email notifications.
- Utilized HTML, CSS, JavaScript, and Bootstrap.
